EXPLANATION

The Academic Year

Each academic year of Fudan University has a fall semester, a spring semester and intensive summer sessions. Each semester includes 18 teaching weeks. For principal courses, i.e., courses focusing on principles, concepts and ideas, students earn one credit for one hour of instruction in class per week throughout the semester. The ratio of weekly contact hours to credit hours varies for practice, laboratory, listening comprehension and physical education courses, which is usually set by the respective teaching division for these courses.

Method of Assessment and Calculation of Grade Points

1. Examination results are recorded according to the floating-point system. Below is the Conversion table for the letter grades and their numerical equivalents.

Grade	A	A-	B+	B	B-	C+	C	C-	D	D-	F	P	NP
Grade Point Conversion	4.0	3.7	3.3	3.0	2.7	2.3	2.0	1.7	1.3	1.0	0	/	/
Corresponding percentage	90-100	85-89	82-84	78-81	75-77	71-74	66-70	62-65	60-61	pass after re-sit	59 and below	60-100	59 and below

The method for calculating the grade points is:

The grade points earned per course = the quality points for the grade (A=4, B=3, C=2, D=1.3, F=0) × the credit hours;

The GPA for a semester/academic year =∑ the grade points earned from courses enrolled in that semester/academic year ÷∑ the credit hours of these courses under consideration.

2. The symbol "*" refers to results obtained outside the University that count towards credits but do not count towards the GPA.

3. For courses whose final assessment is P(Pass) or NP(Not Pass), the course score P counts towards credit, and both P and NP do not count towards the GPA.

4. Honors courses, marked with an "(H)" symbol, are usually more challenging, cover topics more in-depth and involve more preparation.

5. Courses marked with a "(G)" symbol are offered primarily for the graduate students. Undergraduates taking such courses in advance will not obtain credits for their undergraduate education, and accordingly, the results obtained therefrom shall not count towards the GPA for their undergraduate education.

6. The transcript records the students' scores for all the courses taken during their time at the University. According to the "Rules and Regulations of Fudan University Concerning the Award of a Bachelor's Degree", when awarding a degree to a graduating student, the GPA is calculated in conformity with the valid results obtained on all the courses stipulated in the teaching program of the student's major at the time of graduation, and, if the student reaches the required GPA standard for the degree, and satisfies other relevant conditions, a Bachelor's degree will be awarded.
